

Sweden/Baltic Service

samskip

Samskip's multimodal network

Samskip operates a Pan European network of short sea services and multi-modal connections. A diverse range of routing options - by sea, road, rail and inland waterways - provides the best combination of rate and transit time to suit individual customers' requirements and preferences. Besides Door-to-Door transport, Samskip also offers Quay-to-Quay transport on all Samskip short sea services.

Sweden, The Baltic States, Russia, the UK and the Continent

Samskip offers a reliable and frequent service between the UK, the Continent, Sweden and Latvia. With departures every 5 days the service offers an excellent transport solution. Via Latvia Samskip serves Russia and Lithuania by well-selected road connections.

Excellent connection from:

- Hull to Helsingborg and Ventspils (Baltic States and Russia)
- Rotterdam to Helsingborg and Ventspils (Baltic States and Russia)
- Helsingborg to Ventspils (Baltic States and Russia), Hull and Rotterdam
- Ventspils (Baltic States and Russia) to Helsingborg, Hull and Rotterdam

Shortsea and multimodal connections

The UK, Sweden, the Baltic states and Russia are fully integrated in Samskip's multimodal service network. Samskip offers frequent short sea sailings to more than 35 ports, which have been carefully selected for their well-developed hinterland connections. Samskip's road, train and barge solutions allow for fast, reliable and efficient cargo distribution. Because of the schedule integrity, our customers benefit from the ability to plan shipments to and from manufacturers and retailers in time and on budget.

From/To	Rotterdam	Helsingborg	Ventspils	Hull
Rotterdam	-	3 days	6 days	-
Helsingborg	4 days	-	2 days	3 days
Ventspils	6 days	2 days	-	5 days
Hull	2 days	6 days	8 days	-

Unique advantages

Samskip's multimodal connections offer unique advantages for all shippers transporting cargo between Sweden, The Baltic States, Russia, the UK and the Continent.

- Reliable and frequent services
- Well-developed hinterland connections in Europe, Baltic Area and Russia
- Further connections to an extensive pan-European multimodal network
- Wide range of equipment such as 45ft high cube container, reefer and flatrack equipment.
- Door-to-Door and Quay-to-Quay transport possible
- Dedicated customer service and operational teams

Wide range of equipment

Different routes, cargo and regulations ask for specialised and high quality equipment. As Samskip owns a wide range of containers and trailers, we are always able to offer you the right equipment for your specific cargo. Samskip vessels are especially designed to suit the 45ft requirements. Thanks to the 33 pallet loading capacity of the 45ft container, multi-modal transport is highly competitive with conventional road transport. Pallet wide and high cube containers are offered in 45ft as well as 40ft dimensions. Furthermore Samskip offers 45ft reefers for temperature controlled cargo and Samskip's 20 and 40 foot flat racks are the right equipment to handle out of gauge cargo.

*All transit times are subject to change without prior notice.
