samskip

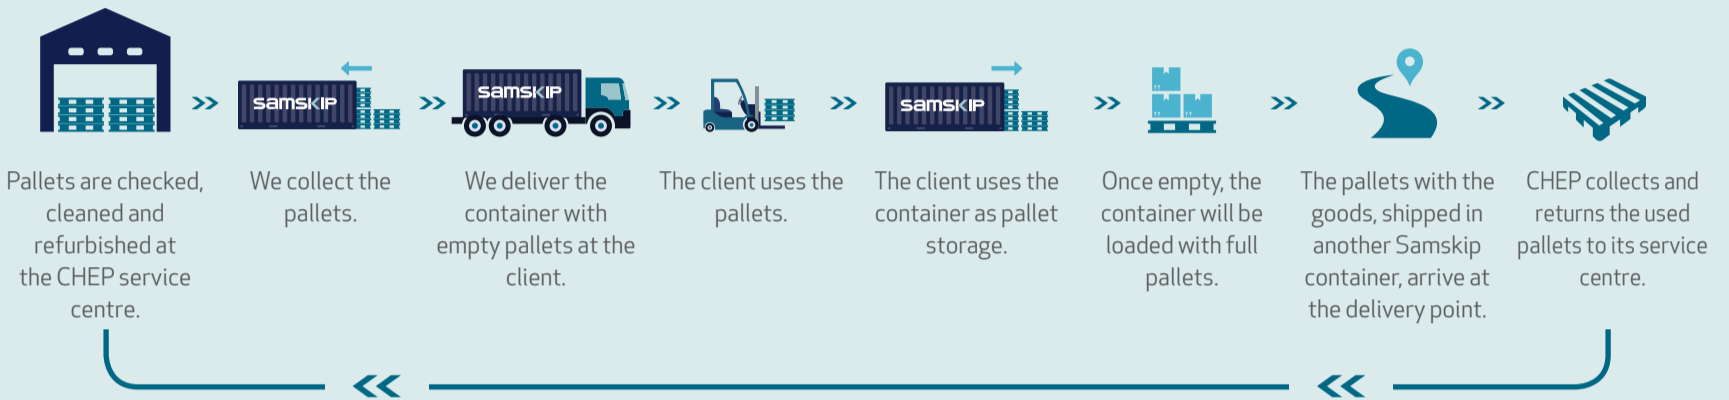

CHEP

A Brambles Company

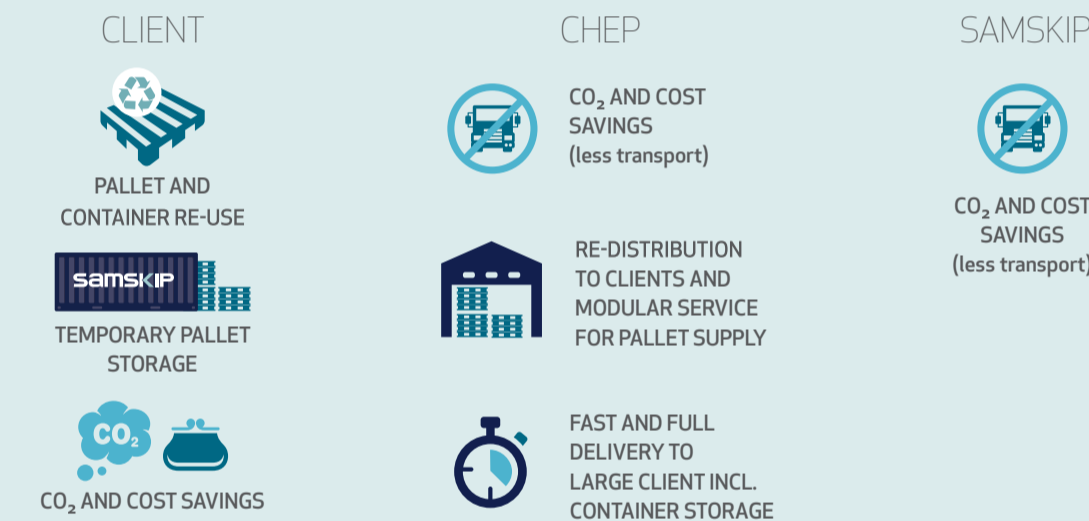

Together with the pallet provider CHEP, Samskip offers a joint service where we deliver a modular unit, a container with 360 pallets, to a client which they can use to load their products. Together, we save road mileage, reduce CO₂ emissions, cut costs and build a better future.

In 2016, Samskip moved roughly **62,000 tonnes of materials** on **90,000 pallets** in **2,700 containers** via this partnership.

PROCESS

BENEFITS

PALLET POOLS

Many companies RENT, LEASE OR SHARE the use of pallets. Pallet pools of various types are growing in Europe.

CLOSED POOL: the pallets always remain the property of pooler; such as with CHEP.

OPEN POOL: the system allows for an exchange as "pallet for pallet".
The most common open pallet pool in Europe is the European Pallet Association (EPAL) who standardized the EUR-pallet in 1961; originating from wooden pallets used in railway transport.

BENEFITS

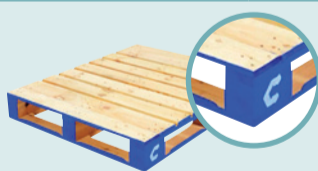

- ★ CONSISTENT QUALITY
- ★ FLEXIBILITY
- ★ THE AVOIDANCE OF CAPITAL EXPENDITURE
- ★ THE REDUCTION OF COSTS
- ★ MORE COST CERTAINTY
- ★ A REDUCTION IN THE LOSS OF ASSETS, ESPECIALLY IN CLOSED POOLS

PALLET PROVIDER
