

# MULTIMODAL NETWORK

Norway

> Samskip has a long history of serving Norway and has built up valuable experience, strong local presence as well as an extensive customer base. Weekly containerised shortsea services connect Norway to the rest of Europe.

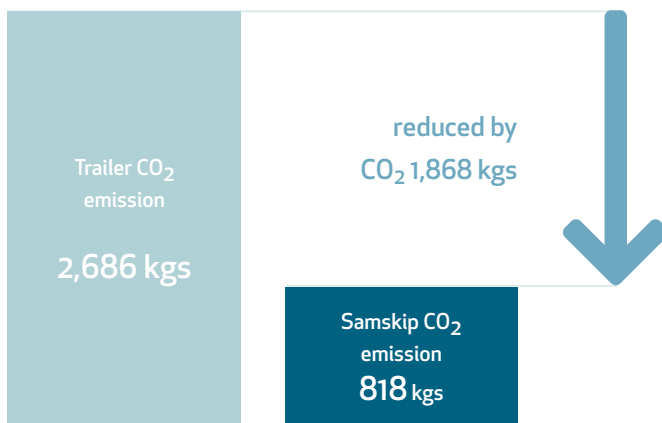

**Multimodal Network**

Samskip offers pan-European, environmentally responsible combined transport services via shortsea, road, rail and inland waterway routes. We are committed to cost-effectiveness, operational excellence and best practice in sustainable transport.

High frequency services connect destinations across Europe, transported using a wide range of owned vessels, trains, containers, trucks and trailers. In all cases shippers can make real choices based on frequency of service, transit times, freight rates and sustainability.

**Sustainable Transport**

Samskip is committed to delivering sustainable transport solutions. By efficiently combining the different transport modes, Samskip and its customers successfully take mileage off Europe’s busy road network.

Bilbao (ES) > ..... Bergen (NO)

**Specialized Equipment**

Samskip offers a wide range of modern equipment to suit the specific needs of your cargo. The fleet includes 20ft, 40ft and 45ft high cube pallet-wide containers. Our temperature-controlled 40ft and 45ft containers are able to safely transport all chilled, cooled or frozen cargo. A specialized department handles project, non-standard and out-of-gauge cargoes (heavy lift or large constructions) which is ideal for the oil & gas industry.

20ft standard	20ft, 40ft & 45ft reefer
20ft, 40ft & 45ft flatrack	45ft pallet-wide curtain side
40ft & 45ft pallet-wide high cube	13.6m standard & mega Huckepack trailer

For the specifications please check out our Equipment brochure.

**The Norway link into Europe**

Samskip offers weekly container services from Rotterdam, Hamburg and Bremerhaven in 7-day rotations into the Oslofjord and to West Norway using three gearless and three geared vessels respectively.

In addition, Nor Lines offers a unique roro system going up to Hammerfest in the far North of Norway. This weekly liner service (CL line) is ideal for project, palletized, dry and seafood cargo. Through a second weekly liner service (PL line) Norway is connected with Swinuce, Poland and Klaipeda, Latvia; ideal for the transportation of building materials into Northern Norway and seafood into Poland and the Baltic States. Finally, Nor Lines links remote ports between Bergen and Kirkenes through a dedicated cargo space charter contract on the Hurtigruten passenger vessel system.

From Oslo rail services are operated to the North of Norway (Trondheim, Bodo, Mi I Rana and Narvik) on a regular basis. This service has a proven track record and a reliable and non-stop connection enables dedicated capacity and swift transit times to our customers.

SAMSKIP	
3 container services	<ul style="list-style-type: none"> <li>• 3x per week ex Rotterdam to South Norway (Oslofjord)</li> <li>• 2x per week ex Rotterdam to West Norway</li> <li>• 1x per week ex Hamburg and Bremerhaven to West Norway</li> </ul>

> Samskip offers door-to-door connections with Norway, serving a total of 38 shortsea and roro terminals.

#### Door-Door Services

Our door-to-door services integrate collection, shipment and delivery into a seamless transport solution. Our dedicated staff ensure that the cargo is delivered while the customer has a single contact for the entire transport chain. Besides full container loads, Samskip also offers groupage and part load services (LCL) to/from Norway. Finally, with our own distribution system of 14 own terminals and 46 agency terminals, we deliver nationwide (overnight) from the main Oslo hub.

#### Terminal-Terminal Services

Samskip's quay-to-quay service to/from Norway allows customers to access Samskip's extensive shipping network using their own equipment. Tank operators, bulk operators and deep-sea lines benefit from the fixed service schedules.

#### Temperature Controlled Services

Through our fully integrated European reefer system, Samskip delivers temperature controlled cargo, most importantly seafood, from shipper to client with one control tower to oversee the entire cold chain.

Through our own Ålesund and Rotterdam-based cold stores Samskip offers cold storage and related services, such as:

- » Container receipt
- » Border inspection
- » Sorting, cross docking
- » Transshipment
- » Packing and loading of various delicate cargoes (mostly seafood)

#### Warehouse & Terminal Services

Third party logistics and cross docking are available for increased flexibility.

#### Customs Services

Being an AEO certified company, our experienced customs departments in Rotterdam and Oslo can assist you with:

- » Customs clearances
- » Direct representation
- » Fiscal representation
- » NCTS (transit) documents

#### Local Representation

To ensure that all customers receive the tailor-made service they need, Samskip has local offices and agents in all regions it operates. Dedicated sales and customer service teams ensure high service standards.

#### Unique Advantages

- » Strong customer focus and customer service
- » Extensive multimodal service network
- » Seamless connections to and from Norway into Europe
- » Frequent, reliable and cost-efficient services
- » In-depth industry experience and expertise
- » Local points of contact
- » Wide range of modern equipment
- » Sustainable transport – lower CO2 emissions
- » In-house monitoring of your goods from collection to delivery
- » In-house customs clearance and documentation for Norwegian customers
- » Online track & trace and proof of delivery
- » Compliant with IMO regulations (Dangerous Goods)
- » Attractive alternative to traditional road haulage part load services to/from Norway
