

Samskip connects the heart of mainland Europe's industry to a key area in Sweden via the multimodal rail terminal in Falköping.

Key Features

- Direct shuttle with 4 departures per week
- Local representation with an office in Åhus to ensure all customers receive tailored services
- Most sustainable transport solution from and into Sweden with a minimum saving of 50% in CO₂ emissions
- Satellite connection from Falköping to Göteborg
- Most extensive rail network connecting Sweden to Europe's mainland
- Maximized payload due to intermodal transport

Focus Points

- Located in the central region of Västra Götalands län, Falköping is within reach of various important industrial areas
- Terminal equipped with crossdocking facilities adds to the various ways Samskip can handle your transports from and into Sweden
- Via Duisburg, connections are available to locations in Southern Europe, including Italy, Spain, Portugal and Turkey
- Having a connection to China on our terminal in Duisburg, the New Silk Road delivers a number of options for transport to and from the Far East
- With only a 4 hour drive to Oslo, Norway is right around the corner
- Via road or barge, Duisburg is connected to Samskip's hub in Rotterdam for vessel connections into the United Kingdom and Ireland

Equipment Types

- 45FT High Cube Pallet Wide Containers & Reefers
- 45FT Pallet Wide Swap Bodies
- 13.6m Standard, Mega or Coil Trailers (P400)
