

SAMSKIP RAIL SOLUTIONS

Samskip Rail services offers customers the possibility to access Samskip's extensive rail network into Scandinavia, West- and Southern-Europe

Multimodal Rail Terminal

Samskip operates its own multimodal rail terminal in Duisburg, Germany. The facility is 140,000 sqm and equipped with nine tracks (each 720mtrs) and two operational cranes. Via this terminal Samskip offers the option to transport from Sweden all the way to Italy.

Specialized Equipment

- o 13.6m Huckapack Mega Trailers (3m inner height)
- o 13.6m Huckepack Trailers (2.7m inner height)
- o 45' PWHC Containers
- o Shippers Owned Containers
- o Shippers owned Huckepack Trailers
- o Tank- and Bulk Containers

Our Approach

Samskip strives for a better world and cares for sustainable transport solutions. By making sure that CO2 emissions are reduced, we leave a positive footprint to the world and to you.

Key Features

- Daily departures between Germany, Sweden and Italy
- Linked to our extended Multimodal European Network
- Door-Door & Terminal-Terminal Services

Focus Points

Converting road transports with more **environmentally** friendly rail transports

Offering **capacity** and **flexibility**

Strong connections with **Samskip's Multimodal Network** (Shortsea, Barge and Haulage)

Shipping from **Sweden all the way to Italy**

From Our Sales Manager

"Our daily rail departures to Sweden and Southern-Europe are key to Samskip's Pan-European transport network. With many years of experience in intermodal transport we have built up valuable experience, knowledge and strong local presence. We offer reliable and environmental friendly services with fast transit times."

Remco Leijgraaff, Sales Manager Rail Network
