

Client announcement: Transition trigger/customs declarations between EU and UK

DATE 22 DECEMBER 2020

Dear customer,

Both EU and UK authorities have now announced that for transports between EU and UK customs declarations will not be required for goods that started their journey before 2300 hrs. GMT on 31 December 2020, provided the trader can show that the goods have been stuffed into a load unit before that time.

We will declare containers which you deliver on terminal in the Port of Loading in merchant haulage in January 2021 as shipments for which customs declarations are required, unless you inform us that the container has been stuffed in December 2020 and we have to declare the container as c-status (no custom declarations required).

Please inform our customer service if you wish to deliver a container on terminal with c-status in January-2021.

Please be aware that you cannot deliver the container on terminal without filing the MRN/UCR-number if you have not explicitly requested us to accept the container in c-status.

QUAY/QUAY- & QUAY/DOOR-BOOKINGS				
delivery on terminal in Port of Loading	shipment on a vessel	export customs declaration required	import customs declaration required	remarks
December-20	January-21	no	no	
January-21	January-21	yes	yes	By default customs declarations will be required
January-21	January-21	no	no	customs declarations not required if you declare c-status to us on booking
January-21	January-21	yes	yes	

DOOR/DOOR- & DOOR/QUAY-BOOKINGS				
stuffing of container	delivery on terminal in Port of Loading	shipment on a vessel	export customs declaration required	import customs declaration required
December-20	December-20	January-21	no	no
December-20	January-21	January-21	no	no
January-21	January-21	January-21	yes	yes

We constantly monitor this situation and will keep you fully informed of the developments.

For more specified information about the status of your shipment or any other questions, please do not hesitate to contact your customer service contact and/or account manager.

We thank you for your understanding.
