

Sweden Rail Product Energy Floater November 2022 Door - Door

18 oktober 2022

Dear valued customer,

The Sweden energy adjustment floater for November 2022 is based on the weighted average of the energy price development, defined in KWH for the trains Samskip operates via Germany, Sweden and Denmark.

For the month of November 2022 the weighted average energy is set at 0,359 KWH. The energy floater will be slightly lower versus October: 172 EURO per shipment

The Sweden energy adjustment floater is reviewed monthly and is published on the Samskip website: <https://www.samskip.com/surcharges/>

The value applied is based on the collection date of shipments.

In case you are invoiced in a different currency than in EUR, the surcharge will be converted based on the average rate of exchange over the above-mentioned period.

We trust that you understand our position and look forward to your continued support.

Sincerely,

Samskip Multimodal
