

Finland

Multimodal Service

Samskip provides Finnish exporters and importers with reliable transport solutions.

Whether you are a freight forwarder or a manufacturer that needs transportation services in and around Finland, make Samskip your preferred partner in logistics.

Our Multimodal Business

We make your business run smoothly

Samskip has established its own business entity in Helsinki, Finland in August 2021. We connect Finland with Great Britain, Ireland, Italy and the Benelux. We focus on reliability with our own fleet of 45ft containers as well as on sustainability through an integrated network of ship, road, rail services and inland barge services.

A Sustainable Approach

For a better world

Samskip strives for a better world and contributes with sustainable transport solutions. We make sure that our CO2 emissions are reduced, so we leave a positive footprint on the world. By uniquely combining various modalities, offering transparency and open communication, we fulfill all your transportation needs.

Rail connection

Extensive rail connections with up to 17 weekly rail departures to/from Italy covering various regions.

Equipment availability

Availability of specialized equipment, including 45ft reefer containers for temperature-controlled cargoes.

Container capacity

Transportation in 45ft high cube pallet wide container with same capacity as a road trailer.

Short transit times

Fixed-day weekly service to/from Helsinki & Kotka via the port of Rotterdam with short transit times.

At your service

A local presence with Samskip offices in all countries of service that speak your language.

Extended network

Linkage to our extensive short-sea network: the UK, Ireland and Iberia via hub in Rotterdam.

"We connect your business to markets across the world by sea freight, rail, road, and even by air. An all-in-one tailor-made solution for your specific transportation needs that boost efficiency, reduce costs, and de-risk your supply chain. Samskip is your preferred partner in logistics. Thinking locally, acting globally, that is the business future with Samskip."
