

Poland Services

Multimodal transport solutions connecting Poland to various European countries.

- Fast and reliable connections.
- Special focus on Iberia, Iceland and Norway.
- Access to Samskip's extended European network.
- Sustainable and eco-friendly solutions.

Samskip strives for a better world and contributes with sustainable transport solutions. By means of our unique way of combining modalities, we make sure that CO2 emissions are at a minimum.

Key Features

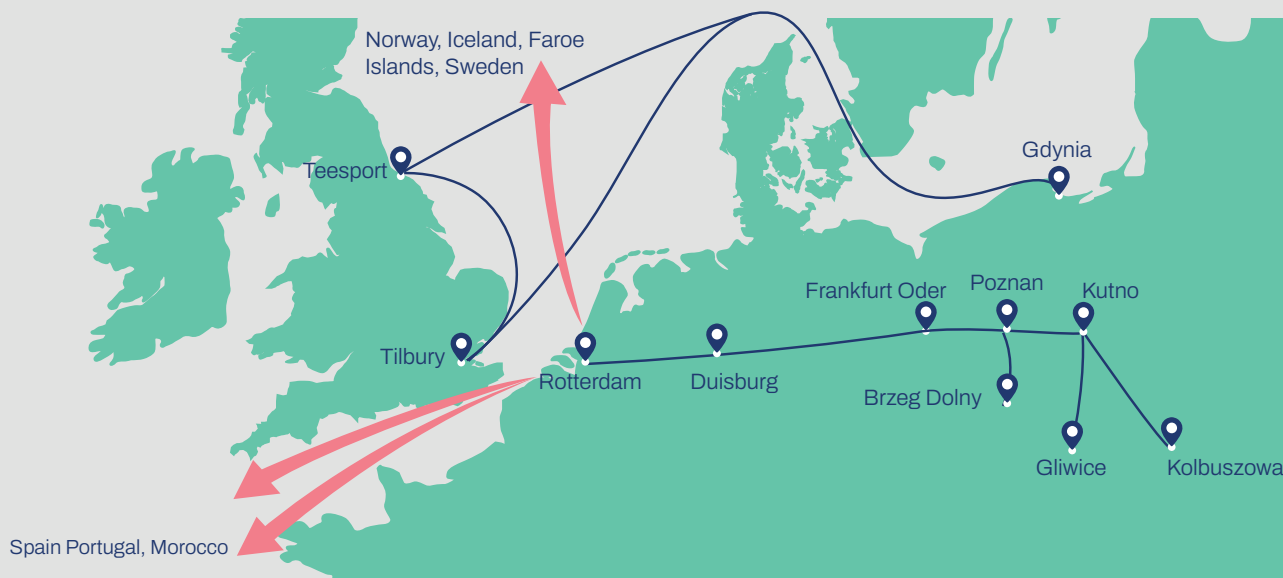

- High frequency shipping with competitive transit-time from hinterland locations,
- Flexible supply chains by reliable multimodal services,
- Connecting with Samskip's Pan-European network via Rotterdam and Duisburg,
- Sustainable and eco-friendly solutions,
- Professional customer service in local language,
- Crossdocking possibilities into the UK from our terminal in Rotterdam.

We transport everything you can think of:

- 45' HC pallet wide container & reefers via Gdynia,
- 150 22000: 2005 for food & alcoholics,
- Waste, electronics, paper,
- Metals, industrial products,
- ADR/Hazardous/chemicals,
- FMCG commodities.

Extended European Network

Exporters can optimize transactions thanks to lowered transport cost.
