

Port to Port Specialists

# Leave the Sea Leg and inland connection to us.

Samskip's Quay-to-Quay service delivers fast, reliable, and sustainable sea transport between key terminals in Europe and beyond.

**Quay-to-Quay:  
Small shift, big impact**  
Switching from road to short-sea can cut transport-related CO<sub>2</sub> emissions by up to 60% and Quay-to-Quay is the simplest way to start.

**Fixed Schedules  
You Can Count On**  
Predictability is power. Our fixed departures and arrivals let you plan connections with full confidence, no guesswork.

**Strong Terminal Collaboration  
= Smooth Operations**  
Thanks to long-standing terminal partnerships, we offer faster turnarounds, clear cut-offs, and priority handling at key locations.

Quay-to-Quay:  
Small shift, big impact

**Direct Connectivity  
Between Strategic Hubs**  
We operate between high-frequency terminals all over Northern & Western Europe, providing optimal access to core logistics corridors.

**Port of Rotterdam**

**More Than Just  
A Regional Operator**  
Unlike our competitors, our terminal connections are not limited to regions but extend to the whole continent.

**Green by Sea**  
Shift freight from road to short-sea and intermodal to reduce emissions, without compromising service levels. Sustainability is built into every voyage.

With fixed schedules, robust terminal partnerships, and reliable equipment availability, we make it easy for logistics providers to integrate our services into their own network.
