- 45ft pallet-wide high cube container
- 45ft pallet-wide hc diesel electric reefers
- 13.6m standard, mega or coil trailer
- 45ft pallet-wide curtain side swap body

Focus Points

Rail services from and into Sweden

- Stockholm Area holds the most potential as it holds the largest density of Swedish industry and we operate a very competitive service with 7-8 times per week Katrineholm shuttle.
- Central and West Sweden coverage through our daily Nassjoe and Falköping shuttles.
- South Sweden entry points can be offered via our rail connections into Helsingborg and Malmö where we additionally can service structural flows with specific demands via Lübeck (DE), Rostock (DE), Zeebrugge (BE) or Rotterdam.
- Connections between Sweden – Italy via Milano, Padova, Pordanone and Trieste, very suitable for 45ft Containers and Swap Bodies.
