COMPANY PRESENTATION

Q1-2026

We are a global logistics company, offering reliable and sustainable transport solutions

- » Originally from Iceland, now a global logistics company with headquarter in Rotterdam, the Netherlands.
- » We focus on cost-efficient, reliable, environmentally friendly solutions to make our customer's journey as smooth as possible.
- » We offer transport by sea, river, rail, road and air and value-added services like customs clearance and (cold) storage.
- » Samskip has the largest European multimodal container network, with 34 offices in 20 countries and a train hub in Duisburg.
- » We believe it is time to innovate logistics for the world we want to live in. Therefore, we are committed to sustainable solutions.
- » Digitalization will drive efficiency and reliability, but we always act local and personal to serve our customers in the best way.

What we envision. What we believe. What we do. Making green logistics easy by putting customers and the environment first.

A worker in an orange Samskip uniform and a white hard hat, seen from behind, walking through a warehouse or industrial setting.

Our Vision

What we envision

We want to become the trusted logistics pioneer

That is why we are making green logistics easy

A worker in a yellow Samskip uniform, smiling, standing next to a Samskip truck.

Our Guidance

What we believe

Every transport we make is a journey. We understand that every journey matters to our customers and to our environment.

That's why every journey counts

A woman with brown hair, smiling, sitting in an office chair.

Our Mission

What we do

We want to be the ones you can always count on because together we make things happen

That's why we deliver reliable logistics solutions to support customers in their ambition

Our values drive the company culture at Samskip

They guide us in our decision-making and our interactions
