

# Samskip Emissions Legislation surcharge

20 July 2026

Dear valued customer,

As part of Samskip's commitment to transparency and sustainability, we would like to inform you about upcoming changes to the EU Emissions Trading System (EU ETS) that will impact our surcharge structure.

From **1 January 2026**, the EU ETS will enter its next phase, requiring shipping companies to cover 100% of emissions on applicable voyages. During 2025, the ETS obligation has been 70% of emissions. This shift to 100% marks the final step of EU ETS implementation.

In addition, the ETS surcharge calculation will transition from using a 2025 base year (Dec 2025 EUA contract) to a 2026 base year (Dec 2026 EUA contract). To reflect these changes, Samskip will adjust its ETS surcharge accordingly.

**Effective date of the new ETS surcharge: 1 January 2026**

The latest monthly average stands at EUR 77.2 versus EUR 80.2 in July, indicating a likely increase in the ETS level compared to last month. You can track the prices following this link: EUA Futures Pricing (ice.com)

The EU ETS charges for **Door-to-Door customer** can be found below.

In case you are invoiced in a different currency than EUR, the surcharge will be converted based on the average rate of exchange over the above-mentioned period.

The EU ETS charge is reviewed monthly and is published on the Samskip website: https://www.samskip.com/surcharges/

We trust that you understand our position and look forward to your continued support.
Sincerely,
**Samskip**
